

THE CLIMATE REGISTRY PRESENTS

CLIMATE LEADERSHIP CONFERENCE

May 21-23, 2024 | Cleveland, Ohio SCHEDULE AT A GLANCE

Tuesday, May 21st

8:00am – 6:00pm **Conference Registration Open All Day**

9:00am – 1:00pm

Morning Sustainability Tours: depart from Hilton

Rid-All Green Partnership: Guided tour of this unique urban farm that is bringing local, healthy food as well as education and training to its surrounding community. Details coming soon.

Cleveland Waterfront Bike Tour: Join this 5-mile bike tour to view recent improvements to Cleveland’s waterfront and downtown parks, enhancing public space, biodiversity and resilience strategies. The tour will be hosted by sustainable development consultancy Arup, a sponsor of the 2024 Climate Leadership Conference. Details coming soon.

11:00am – 12:30pm **Interactive Workshops:** *Participate in a discussion that facilitates knowledge exchange and offers hands-on tools for tackling key climate solutions.*

Implementation of Climate Solutions: Building on Collaborative Planning in Northeast Ohio

Hosted by: ICLEI

Impactful Clean Power Procurement: Making the Most of Your Investment in Sustainable Energy

Hosted by: Center for Resource Solutions (CRS)

The Evolution of Nature-Based Carbon Solutions – Last but Not Later

Hosted by: Anew

12:30 – 1:30pm **Networking Lunch** in the lounge

1:30pm – 3:00pm **Afternoon Workshops**

Engaging Communities in the Energy Transition

Hosted by: Business Council for Sustainable Energy (BCSE) and Edison Electric (EEL)

From Aspirations to Action: Reducing Scope 3 Emissions with a Creative Shift in Supplier Engagement

Hosted by: Guidehouse

Integrating Data Verification into Sustainability Reporting and Disclosure

Hosted by: The Climate Registry (TCR)

3:00pm – 3:30pm **Networking & Refreshments Break**

3:30pm – 5:30pm **Opening Plenary Session**

Mayor Justin M. Bibb, City of Cleveland, also serving as Climate Mayors Chair, Welcomes CLC to Cleveland!

Future Cities: Preparing for a New Climate Reality through Green Infrastructure and Economic Development

- Grant Ervin, Vice President for External Affairs and Sustainability, S&B USA
- Vincent Lee, Principal, Arup
- Councilmember Meeka D. Owens, City of Cincinnati
- Matt Petersen, President & CEO, Los Angeles Cleantech Incubator (LACI)

Regional Leadership, Innovation, and Cross Sector Collaboration in Pursuit of an Equitable Low-Carbon Future

- Sunny Elebua, Senior Vice President and Chief Strategy & Sustainability Officer, Exelon, Corp
- Amy Longworth, Executive Director, Boston Green Ribbon Commission
- Baiju Shaw, President & CEO, Greater Cleveland Partnerships
- Deepa Vedavyas, Director of Resiliency and Sustainability, Northeast Ohio Public Energy Council (NOPEC)

6:00pm – 10:00pm

Welcome Reception at the Rock and Roll Hall of Fame Museum

Wednesday, May 22nd

7:00am – 8:30am

Registration, Breakfast, Networking

Day 2 Welcome + Plenary Session

Cuyahoga County Executive, Chris Ronayne on Leading the Region's Climate Transition

How Finance, Policy, and Technology are Accelerating Decarbonization

8:30am – 10:15am

- Lisa Jacobson, President, Business Council for Sustainable Energy (BCSE)
- Rick Saines, Managing Director, Pollination
- Ethan Zindler, Climate Counselor to the Secretary, U.S. Department of Treasury

Climate Disruptors Spotlight Series

- Laurie Fitzmaurice, President of Global BECCS, Drax Group
- Adam Klauber, Vice President, Sustainability and Digital Supply Chain
- Rick Stockberger, President & CEO, BRITE

10:15am – 10:45am

Networking & Refreshments Break

10:45am – 11:45am

Morning Breakout Sessions: *Learn from topical discussions that focus on specific climate solutions; opportunities to engage panel*

TRACK 1: Pathways to Net Zero: By Sector

TRACK 2: Integrated Climate Solutions

TRACK 3: Future Focused on Accountability, Equity, and Sound Policy

Solutions of Scale: Decarbonizing the Built Environment Ecosystem

Accelerating decarbonization in the built environment is essential for our low-carbon future, but which solutions are most effective and available today? This discussion focuses on how

Implementing Circular Strategies and Delivering Low-Carbon Products

Circularity largely boils down to 'reduce, reuse, and recycle' – strategies that reduce demand for raw materials, build efficiencies into the manufacturing (or institutional) processes, and influence end-user behavior.

Weathering the Storm: Rebuilding Equitable, Climate Resilient Communities

While economic damages from weather-related disasters continue to surge, government, local agencies, and businesses are becoming more adept at

companies, institutions, and governments are driving decarbonization across the real estate and infrastructure ecosystem and which tools, technologies, and opportunities are proving valuable and scalable.

Elizabeth Beardsley, P.E., Senior Policy Counsel, U.S. Green Building Council (moderator)

Lincoln Bleveans, Executive Director, Sustainability Utilities & Infrastructure, Stanford University

Jessyn Farrell, Director, Office of Sustainability & Environment, City of Seattle

Uma Patwardhan, North America Sustainable Buildings Practice Manager, JLL

These circular solutions play a critical role in the pathways to decarbonization and often lean on collaborative action. Learn how companies and institutions are collaboratively leveraging the overlap between circularity and decarbonization strategies through innovative and cost-effective procurement, consumption, design, and waste management measures throughout the value chain.

Lisa Grice, Executive Director, Sustainable Products and Circularity, Anthesis Group (moderator)

Chastity Mcleod, Vice President of Sustainability - North America, Nestle

Wesley Porter, Business Development Director – Sustainability & Innovation, Barry Global, Inc.

Phil Valko, Assistant Vice Chancellor for Sustainability, Washington University in St. Louis

assessing and responding to climate risk and impact. Among the many challenges, there is a great opportunity to rebuild with an emphasis on nature and people. Panelists will share tools for enhanced adaptation planning and how they are investing in resilient infrastructure and a just transition for their communities.

Dana Davis, Assistant Vice President, WSP USA (moderator)

Kyle Dreyfus-Wells, CEO, Northeast Ohio Regional Sewer District

Johanna Lawton, Project Manager, Rebuild by Design

William Schleizer, CEO, Delta Institute

12:00pm

Networking Lunch in the ballroom

12:45pm – 1:30pm

Plenary Programming: The Power of Storytelling to Advocate for Climate Justice

- Eddie Ahn, Executive Director, Brightline Defense; Author, “Advocate: A Graphic Memoir of Family, Community, and the Fight for Environmental Justice”
- Ronda Lee Chapman, Associate Vice President, Equity and Belonging, Trust for Public Land (TPL)

2:00pm – 3:00pm

Afternoon Breakout Sessions

TRACK 1: Pathways to Net Zero: By Sector

Growing Impact: The Role of Agriculture, Nature, and Food Systems

While hugely impacted by a changing climate, agriculture, and food systems have enormous potential to play a significant role in the path to decarbonizing our economy. Panelists will explore the importance of collaborative solutions to tackle critical challenges including decreasing methane emissions, strengthening soil health, and supporting biodiversity conservation within agricultural practices as a means to cultivate a sustainable and resilient food system for generations to come.

Peter Lehner, Managing Attorney, Sustainable Food & Farming, Earthjustice

TRACK 2: Integrated Climate Solutions

Scaling Climate Solutions that Center Around Public Health, Equity, and Resilience

In addition to understanding and preparing for the physical impacts of climate change, there is growing concern about the vulnerabilities that can ripple through communities and economic systems. In order for climate solutions to be valuable for impacted communities, we must focus on the implications to public health, equity, and nature and ensure long-lasting resilience.

Sarah O’Keeffe, Director, Sustainability and Climate Justice, City of Cleveland

Dr. Natalie Sudor Egnot, Managing Health Scientist and ESG Advisor, Stantec

TRACK 3: Future Focused on Accountability, Equity, and Sound Policy

Navigating the Evolving ESG Landscape and Leveraging Credible Carbon Data

Climate threats, impact, and the cost of inaction are keeping companies and stakeholders on their toes, while the rules and regulations around disclosures and material risks continue to evolve. This discussion explores what’s coming down the pike, how companies are preparing for state, federal, and international mandates seeking detailed third-party reviewed data within their operations, and what these organizations have learned through years of voluntary reporting and the value of having transparent

John Tausel, Senior Director, Global Agriculture Methane, Environmental Defense Fund

climate data to drive business decisions.

Ashlyn Anderson, Sustainability Consultant, Stantec

Reuven Carlyle, Executive Vice President, Earth Finance (moderator)

Anand Natarajan, Assistant Director of Sustainability & Climate Justice, Mayor's Office of Sustainability, City of Cleveland

Lisa Shpritz, Environmental Operations Executive, Bank of America

3:00pm – 3:30pm

Networking & Refreshments Break

3:30pm – 4:20pm

Topical Exchange Sessions: *Join a small group discussion facilitated by a lead conversation starter*

4:30pm – 5:45pm

Plenary Session: Corporate Climate Leadership

Leveraging Transparent Climate Data to Drive Key Initiatives and Build Credible Narrative

- Edan Dionne, Vice President, IBM
- Shannon Siart, Director, ESG & Climate, NASDAQ

Maximizing Environmental Impact through Value Chain Engagement

- Ashley Allen, Founder & President, CSO Copilot LLC
- Whitney Kakos, Director of Supply Chain Sustainability, Keurig Dr Pepper (KDP)
- Athanasia Xeros, Vice President of Climate Strategy, Mastercard

6:00pm

Reception

7:00pm – 9:00pm

Climate Leadership Awards Ceremony & Dinner

Thursday, May 23rd

7:30am – 8:45am

Breakfast & Networking

Plenary Session: Inspiration and Opportunities on the Road Ahead

Leading the Clean Energy Revolution

8:45am – 10:15am

- Mary Nichols, Distinguished Counsel, Emmett Center at the UCLA School of Law
- Christie Obiaya, CEO, Heliogen
- Snuller Price, Senior Partner, Energy and Environmental Economics, Inc. (E3)

Global Climate Solutions and Signs of Progress

10:15am – 10:45am

Networking & Refreshments Break

10:45am – 11:45am

Morning Breakout Sessions

TRACK 1: Pathways to Net Zero: By Sector

Breakthrough Technologies for Decarbonizing Hard to Abate Industries

Hard-to-abate sectors face unique decarbonization challenges and require collaborative strategies and emerging technologies to scale...fast! While many sectors can utilize readily available low-carbon technologies, efficiencies, and innovative solutions, commercially available solutions are still limited for industries where increased efficiency and green electrification cannot address the majority of emissions. This session explores breakthrough technologies, new opportunities, and the road ahead for heavy industry and manufacturing, cement, and natural gas.

Rachael Cavanagh, Global Sustainability Program Lead - Climate Change, Intel Corporation

Blaine Collison, Executive Director, Renewable Thermal Collaborative (moderator)

Jawaad Malik, Chief Strategy and Sustainability Officer, Southern California Gas Company

Jamie Rogers, Director of Public Policy, CarbonCure Technologies

Katheryn Scott, Market Analyst, Office of Technology Transitions, U.S. Department of Energy

TRACK 2: Integrated Climate Solutions

Driving the EV Revolution: The Crucial Role of Infrastructure, Policy, and Partnerships

The EV Revolution is already underway, but scaling the revolution across the country will require strategic public-private partnerships between all levels of government, the private sector, and nonprofit organizations. This discussion focuses on the cross-sector collaboration currently underway to decarbonize the transportation industry, how it's developing new opportunities - like manufacturing jobs in the American clean economy - and what challenges remain in reaching related climate goals.

Alexa Voytek, Deputy Director, Office of Energy Programs, Tennessee Department of Environment and Conservation

TRACK 3: Future Focused on Accountability, Equity, and Sound Policy

Communities Capitalize on America's Landmark Infrastructure Investment Bill to Advance Net Zero Goals

Landmark federal legislation and investment through IIJA and IRA bills are creating a clean energy boom in every corner of the country - supporting a broad range of decarbonization solutions like alternative fuels, EV charging infrastructure, supply chain engagement, enabling technologies, and climate action or transition planning. Join this conversation to hear from those putting these funds to use, what lessons have been learned along the way, and how public-private collaboration is playing a key role in securing and leveraging funds to transform cities and communities across the U.S.

Will Friedman, CEO, Port of Cleveland

Doug Huxley, Principal Technologist, Jacobs (moderator)

Maria Redmond, Director, Wisconsin Office of Sustainability and Clean Energy

Kate Wright, Executive Director, Climate Mayors

11:45am – 12:00pm

Transition

12:00pm – 2:00pm

Lunch + Closing Plenary

What Makes this the Greatest Economic Revolution in Generations?

Hear from executive director of national non-partisan business group, E2, and author of new book, *Clean Economy NOW: Stories from the Frontlines of an American Business Revolution* Bob Keefe

2:30pm

**Conference Adjourns
Post-Conference Team Meetings, Networking, and Tours**

Continue the conversation with new CLC friends during a **Cleveland Botanical Garden tour!** Details coming soon.
